Dear Mr. Anderson,

I am opposed to the plans for a campground in Burton Creek State Park. I feel that the Park best serves the public of the State of California and all of the tourists enjoying the Lake Tahoe area by remaining in its current "unimproved" state. After considering the impact on year round recreation in the park, environmental concerns, fire danger, and state budget issues, I oppose all of the alternatives proposed in the Burton Creek General Plan and would suggest enlargement of existing campgrounds to serve any perceived shortfall in State Park sites. Thanks for your Attention,

Dear Mr. Anderson,

I am opposed to the plans for a campground in Burton Creek State Park. I feel that the Park best serves the public of the State of California and all of the tourists enjoying the Lake Tahoe area by remaining in its current "unimproved" state. After considering the impact on year round recreation in the park, environmental concerns, fire danger, and state budget issues, I oppose all of the alternatives proposed in the Burton Creek General Plan and would suggest enlargement of existing campgrounds to serve any perceived shortfall in State Park sites. Thanks for your Attention,
